

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Jupiter Ecology Fund I-Class

I-Class Income Units, ISIN: GB00B7W6PR65

The Manager is Jupiter Unit Trust Managers Limited.

Objectives and investment policy

Objective

The Fund objective is to provide capital growth with the prospect of income, over the long term (at least five years) by investing in companies whose core products and services address global sustainability challenges.

Policy

At least 70% of the Fund is invested in shares of companies based anywhere in the world whose core products and services address global sustainability challenges. Up to 30% of the Fund may be invested in other assets, including shares of other companies, open-ended funds (including funds managed by Jupiter and its associates), cash and near cash. Companies must meet both a comprehensive financial assessment and environmental and social criteria including looking at a full range of ethical exclusions.

Strategy

The fund manager has a sustainable solutions thematic approach which typically means investing in companies generating the majority of their revenues over the long-term from products and services that assist with climate change mitigation, transition to a circular economy, waste prevention and recycling, protection of healthy ecosystems, pollution prevention control and sustainable use and protection of water and marine resources, for example. Although the Fund's investment universe is largely influenced by this focus on sustainable solutions companies, prospective investments that generate more than 10% of revenues from any combination of armaments, alcoholic drinks, tobacco, pornography, nuclear power and gambling will not be invested in.

Benchmarks

Comparator benchmarks: FTSE ET100 Index

The FTSE ET100 Index comprises of the 100 largest "pure-play" environmental technology companies globally, by full market capitalisation. The index is designed to measure the performance of companies that have a core business in the development and operation of environmental technologies. Many funds sold in the UK are grouped into sectors by the Investment Association (the trade body that represents UK investment managers), to help investors to compare funds with broadly similar characteristics. This Fund is classified in the FTSE ET100 Index.

IA Global Sector

Many funds sold in the UK are grouped into sectors by the Investment Association (the trade body that represents UK investment managers), to help investors to compare funds with broadly similar characteristics. This Fund is classified in the IA Global Sector.

Active Management

The Fund is actively managed. This means the fund manager is taking investment decisions with the intention of achieving the Fund's investment objective; this may include decisions regarding asset selection, regional allocation, sector views and overall level of exposure to the market. The fund manager is not in any way constrained by the benchmark in their portfolio positioning.

Any income arising in relation to this share class will be distributed to investors on a regular basis.

Investors are able to buy and sell units during any business day between 9am and 5.30pm. If you tell us to buy or sell units before 12pm on any business day we will make the transaction on the same day. If you tell us to buy or sell units after 12pm we will make the transaction on the following business day.

Recommendation

This fund may not be suitable for investors who plan to withdraw their capital within 5 years.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

- The lowest category does not mean 'no risk'.
- The Fund is in this category due to the nature of its investments and previous levels of volatility (how much the value of the Fund rises and falls).
- Market and exchange rate movements can cause the value of an investment to fall as well as rise, and you may get back less than originally invested.
- The value of income payments will fluctuate.

Charges

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment.

Charges taken from the Fund over a year

Ongoing charges	0.78%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
- The ongoing charges figure excludes the costs of buying or selling assets for the Fund (unless those assets are shares of another fund). A change to the Fund's charging structure took effect on 29/05/2020. The ongoing charges figure with effect from that date is fixed. The annual report and accounts for the Fund will include details of the exact charges made.
- Further information about charges is available in sections 18 and 19 of the Scheme Particulars which are available from Jupiter on request.
