

KEY INVESTOR INFORMATION

This document provides you with the key investor information about this sub-fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this sub-fund. You are advised to read it so you can make an informed decision about whether to invest.

Lindsell Train Japanese Equity Fund

Class B Sterling Quoted - Distributing (ISIN: IE00B7FGDC41)

A sub-fund of Lindsell Train Global Funds plc

Objectives and Investment Policy

Objective

The sub-fund's aim is to achieve growth through both share price appreciation and income from the shares.

Investment Policy

The sub-fund invests directly in the shares of Japanese companies primarily quoted on recognised exchanges in Japan.

Essential Features of the Sub-Fund :

- The sub-fund is actively managed, the investment manager having discretion in selecting investments in line with the sub-fund's objective and investment policy.
- The TOPIX Index (the "Benchmark") has been selected as the sub-fund's Benchmark for performance comparison purposes only. Whilst the sub-fund may invest in companies that are components of the Benchmark, the sub-fund does not track the Benchmark or use the Benchmark as a performance target, and the sub-fund may hold investments that are not constituents of the Benchmark. The Benchmark does not play a role in the construction of the sub-fund's portfolio.
- The sub-fund is a concentrated fund which means that it holds fewer shares than many other funds; typically between 20 and 35. In building the portfolio, the investment manager does not

apply any limits in terms of stock and sector portfolio weightings, when compared to the Benchmark.

- This class does not use currency hedging. It translates the daily Yen valuation so that prices and performance can be quoted in Sterling.
- This class is a distributing class, meaning any income will be paid out to you twice a year.
- You can buy and sell shares in the sub-fund on any week day on which commercial banks are open in Dublin, London and Tokyo.
- This sub-fund may not be appropriate for investors who plan to withdraw their money within five years.
- Please refer to the Prospectus for further information.

Risk and reward profile

- This scale gives an indication of how much a sub-fund's performance has fluctuated in the past and therefore the potential risk of losing money.
- This indicator is based on five year historical data and may not be a reliable indication of the future risk profile of this sub-fund. Please note the five year historical data is based on a combination of the A Sterling Quoted share class and the B Sterling Quoted Distributing share class.
- The risk number is not guaranteed and may shift over time.
- The lowest category does not mean risk free.
- This share class has been classed as 6 because its volatility has been measured as high.
- The sub-fund does not offer any capital guarantee or protection.

Risks that are materially relevant to the sub-fund include:

- The sub-fund invests in shares of Japanese companies and the value of these shares and the income from them can go down as well as up due to changes in the company, its industry, changes in currency or the Japanese economy.
- The sub-fund's concentration in a limited number of shares means it may be more affected if an individual company has significant losses. This may at times increase the volatility of the sub-fund relative to its Benchmark and the possibility of underperforming the Benchmark over some time periods.
- The value of your investment may fall as well as rise due to changes in the exchange rate between the currency of the share class and the investor's own base currency.
- All or part of the fees and expenses of the sub-fund may be taken from its capital (rather than income). This may reduce the amount of capital available for investment and adversely affect the sub-fund's overall growth. Shareholders may not get back the original amount invested.
- Please see the Prospectus (section entitled "Risk Factors") to read about other risks.
