

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Jupiter Ecology Fund I-Class

I-Class Income Units, ISIN: GB00B7W6PR65

The Manager is Jupiter Unit Trust Managers Limited.

Objectives and investment policy

Objective

The Fund objective is to provide capital growth with the prospect of income, over the long term (at least five years) by investing in companies whose core products and services address global sustainability challenges.

Policy

At least 70% of the Fund is invested in shares of companies based anywhere in the world. The Investment Manager seeks to identify companies whose core business, in the opinion of the Investment Manager, provides a solution to global sustainability challenges alongside a financial return. The Investment Manager will seek to identify the universe of these companies based on recognised sustainability challenges, investing across a combination of themes including but not limited to climate change mitigation, transition to a circular economy, waste prevention and recycling, protection of healthy ecosystems, pollution prevention control and sustainable use and protection of water and marine resources. Companies must meet both a comprehensive financial assessment and environmental and social criteria including looking at a full range of ethical exclusions. The Investment Manager seeks to avoid investments in industrial activities which do not fit with its environmental and social goals.

Up to 30% of the Fund may be invested in other transferable securities, open-ended funds (including funds managed by Jupiter and its associates), cash, near cash, money market instruments and deposits.

The Fund may use derivatives (i.e. financial contracts whose value is linked to the expected price movements of an underlying investment) with the aim of reducing the overall costs and/or risks of the Fund.

Strategy

The fund manager has a sustainable solutions thematic approach which typically means investing in companies generating the majority of their revenues over the long-term from products and services that assist with climate change mitigation, transition to a circular economy, waste prevention and recycling, protection of healthy ecosystems, pollution prevention control and sustainable use and protection of water and marine resources, for example. Although the Fund's investment universe is largely influenced by this focus on sustainable solutions companies, prospective investments that generate more than 10% of revenues from any combination of armaments, alcoholic drinks, tobacco, pornography, nuclear power and gambling will not be

invested in.

Benchmarks

Comparator benchmarks: MSCI All Country World Index

The MSCI All Country World Index is an industry standard index and is one of the leading representations of global stock markets. It is easily accessible and provides a fair reflection of the Investment Manager's investment universe and a good relative measure to assess performance outcomes.

IA Global Sector

Many funds sold in the UK are grouped into sectors by the Investment Association (the trade body that represents UK investment managers), to help investors to compare funds with broadly similar characteristics. This Fund is classified in the IA Global Sector.

Active Management

The Fund is actively managed. This means the fund manager is taking investment decisions with the intention of achieving the Fund's investment objective; this may include decisions regarding asset selection, regional allocation, sector views and overall level of exposure to the market. The fund manager is not in anyway constrained by the benchmark in their portfolio positioning.

Any income arising in relation to this unit class will be distributed to investors on a regular basis.

Investors are able to buy and sell units during any business day between 9am and 5.30pm. If you tell us to buy or sell units before 12pm on any business day we will make the transaction on the same day. If you tell us to buy or sell units after 12pm we will make the transaction on the following business day.

Recommendation

This fund may not be suitable for investors who plan to withdraw their capital within 5 years.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

- The lowest category does not mean 'no risk'.
- The Fund is in this category due to the nature of its investments and previous levels of volatility (how much the value of the Fund rises and falls).
- Currency (FX) Risk** - The Fund can be exposed to different currencies and movements in foreign exchange rates can cause the value of investments to fall as well as rise.
- Pricing Risk** - Price movements in financial assets mean the value of assets can fall as well as rise, with this risk typically amplified in more volatile market conditions.
- Derivative risk** - the Fund may use derivatives to reduce costs and/or the overall risk of the Fund (this is also known as Efficient Portfolio Management or "EPM"). Derivatives involve a level of risk, however, for EPM they should not increase the overall riskiness of the Fund.
- Counterparty Risk** - the risk of losses due to the default of a counterparty e.g. on a derivatives contract or a custodian that is safeguarding the Fund's assets.
- ESG (thematic)** - Investments are selected or excluded on both financial and non-

financial criteria, adopting an environmental solutions thematic approach to sustainable investment. The Fund's performance may differ from the broader market or other funds that do not utilize sustainable investment criteria when selecting investments. The Fund's investments are required to meet this criteria and the Fund may sell a security for reasons related solely to its sustainable investment criteria.

- ESG Data** - The Fund uses data from third parties (which may include providers for research, reports, screenings, ratings and/or analysis such as index providers and consultants) and that information or data may be incomplete, inaccurate or inconsistent.
- For a more detailed explanation of risk factors, please refer to the "Risk Factors" section of the Scheme Particulars.

Charges

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment.

Charges taken from the Fund over a year

Ongoing charges	0.80%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
- The ongoing charges figure is based on the fixed annual charge as detailed in the Scheme Particulars. Where the Fund invests in other underlying funds, which may include closed-ended funds such as investment trusts, the ongoing charges figure will include the ongoing charges for those funds, and will therefore vary from year to year. The ongoing charges figure excludes portfolio transaction costs, except in the case of an entry/ exit charge paid by the Fund when buying or selling shares in another collective investment undertaking.
- Further information about charges is available in sections 18 and 19 of the Scheme Particulars which are available from Jupiter on request.
